What stays the same?

Our commitment to:

1. Gender and diversity
2. Climate change mitigation and adaptation
3. MSME finance
4. Lower-income economies in LAC, especially small & island countries
5. Mobilization of third-party resources
6. Development effectiveness

What values guide our work?

**Focus**
Using a COVID-19 lens to: Protect, Alleviate and Reignite.

**More**
Expanding the amount of resources deployed to the region via ($7B)

**Sustainable**
Actively monitoring the financial sustainability of IDB Invest and the response to COVID-19

**Faster**
Creating faster lanes to deploy resources during the crisis to:
- Deploy resources during the crisis through a narrowly defined COVID-19 delegated facility
- Deliver the portfolio’s expected development impact

**Together**
Going further by going together, leveraging the strength of the IDB Group and strengthening partnerships

**Adaptable**
Temporary governance modifications to act accordingly with the urgency of this crisis

Millions USD$
What are our goals?

Protect & alleviate: 
We will finance projects that alleviate healthcare constraints, food security, maintain jobs, restore supply chains and sustain sources of income, especially for MSMEs.

Reignite growth: 
We will finance critical sectors to support the speed and quality of a recovery scenario.

How are we going to achieve our goals?

1. Provide financing to Financial Intermediaries (FI) in connection with new operations for further on-lending to MSMEs.

2. Boost the Trade Finance Facilitation Program (TFFP) for Financial Institutions to sustain the sources of trade finance for LAC importing and exporting companies.

3. Increase corporate lending to tourism, manufacturing, agribusiness and technology sectors with a strong and clear impact to respond to the current crisis.

4. Play a countercyclical role and continue supporting Infrastructure projects to avoid delaying investments and help economic recovery.

5. Provide advisory services to help our clients respond to the COVID-19 crisis while at the same time continuing to address the sustainability challenges facing our region, such as climate change, gender equality and MSME inclusion.
How will we prioritize demand?

• Contribution to the crisis (Protect & Alleviate, Reignite)
• Sound credit fundamentals
• Environmental, social and financial sustainability
• Contribution to corporate targets and the SDGs
• Ability to have a demonstration effect in local economies
