² Blended Finance Investment amounts are based on the committed amount at execution of the underlying project documentation. Total financing is based on the amounts reported in projects' press releases. Such amount may not include the overall projects' investments (e.g. sponsor's equity, other co-financings, etc). Amounts reported at project level may therefore differ from the aggregate investment amount leveraged through blended finance (c.f. \$Our Numbers). Reported projects expected contribution to Sustainable Development Goals (SDGs) is based on *ex-ante* assessment (updated *ex-post* during the life of the project).
