I. INTRODUCTION

1. The Inter-American Investment Corporation (IIC or IDB Invest)\(^1\), a member of the Inter-American Development Bank (IDB) Group, is an international organization that promotes the economic development of its regional developing member countries by encouraging the establishment, expansion, and modernization of private enterprises. IDB Invest supports the private sector and state-owned enterprises that do not have a sovereign guarantee, offering loans, equity investments, and guarantees, and partnering with clients and strategic partners to offer advisory and training services.

2. This Access to Information Policy (the “Policy”) reflects IDB Invest’s commitment to enhancing transparency and accountability in its activities, aspects that the institution considers necessary and fundamental to fulfill its sustainable development purpose.

3. IDB Invest is aware that with the consolidation of the Internet and the increasing use of social media, citizens demand more information and greater transparency from public and private institutions. In addition, IDB Invest recognizes the solid developments made in recent years to advance the recognition and exercise of the right to access information as a fundamental human right, including that most countries in Latin America and the Caribbean (LAC) have adopted regulatory frameworks on transparency and access to information. Similarly, in recent years, most International Financial Institutions (IFIs) have revised their information policies to adapt them to current international standards on this topic.

4. The Policy is governed by the principle of maximizing access to information and in line with this principle, it establishes a presumption in favor of disclosure, subject to a list of clear and well-defined exceptions. In addition, the Policy reflects the nature and sensitivity of the information that IDB Invest receives from its clients, including matters related to market competitiveness. IDB Invest seeks to preserve the trust of its clients and third parties, and to work with them to increase the transparency of their commercial activities, with emphasis on the management of environmental and social risks and impacts of its investment projects.

5. The Policy will take effect on January 1, 2020 and supersedes the Disclosure of Information Policy of October 11, 2005 in its entirety. Disclosure of information produced prior to this Policy entering into effect will be governed by the policy and procedures in effect at the time IDB Invest produced or received the information. This Policy is not an express or implied waiver of IDB Invest’s privileges and immunities under the Agreement Establishing the IIC, international conventions, or any applicable law, nor does it provide any contractual or other rights to any party.

---

\(^1\) In November 2017, the Inter-American Investment Corporation – IIC - adopted a new brand and now refers to itself as IDB Invest (in English) and BID Invest (in Spanish, French and Portuguese).

Anonymous requests will not be considered. However, IDB Invest will maintain the identity of the requester confidential when the requester so requests.

c) Languages

70. Requests for information may be submitted in any of the four official languages of IDB Invest. The requested information will be provided in the language in which it is available.
d) Responding to Requests

71. Requests for information will be analyzed under the Policy and its exceptions. In responding to requests, IDB Invest determines whether information requested may be made available in accordance with this Policy and based on the scope of the requests, the number of requests, the availability of the information requested, and whether the requester should be referred to IDB Invest’s client. IDB Invest will acknowledge receipt of requests for information and will endeavor to provide its response as quickly as possible within a maximum period of 30 calendar days following receipt of the request. If IDB Invest requires additional time to respond because of the scope or complexity of the request, it will contact the requester in writing to inform such requester of the delay and provide an estimated timeframe for its response. Requests for information must identify the specific information requested; where a request is insufficiently clear or precise to identify the information required, or is unreasonably broad, IDB Invest reserves the right to ask the requester to provide clarifications or to narrow down the scope of the request.

72. When responding to a request, IDB Invest will make the information available on its website and share the electronic link with the requester.

73. IDB Invest may deny a request for information when it determines that the information requested is “confidential” under the Policy exceptions in Section IV. Whenever IDB Invest denies a request for information, it will explain the reasons for its decision to the requester, indicating the exception under which the information is considered “confidential” under the Policy, and inform the requester of the right to request a review of the denial.

e) Responding to Requests for Client or Third Party Information

74. When IDB Invest receives a request for information that belongs or relates to a client or a third party, unless the information requested is in the public domain, IDB Invest shall follow the procedure described in section d) above to consult with such client or third party on whether the information requested is confidential as contemplated under the Policy exceptions in Section IV.

f) Costs

75. Information is made available in digital form free of charge on IDB Invest’s corporate website. IDB Invest may charge reasonable fees for the cost of producing and sending copies to requesters, which may be regulated in the implementation guidelines.

B. REVIEW MECHANISM

76. A requester who believes that the denial of the requested information is contrary to the provisions of this Policy will have access to a two-stage review mechanism.

a) Review by Management

77. The requester may first opt for a review of a denial of information by a mechanism established by IDB Invest Management to confirm the correct application of the Policy and its exceptions. In a second stage, an external panel independent of IDB Invest Management may review any denial confirmed pursuant to such mechanism. This mechanism will be regulated in the Policy’s implementation guidelines.
b) Review by an External Panel Independent of Management

78. If IDB Invest’s Management mechanism confirms the denial of a request for information, the requester may appeal this decision to an external panel independent of Management, which will verify the correct application of the Policy and its exceptions and may confirm or reverse the denial decision rendered in the first stage. The decisions of this panel are final and not subject to review.

c) Timelines

79. Requests for review by IDB Invest Management mechanism or the independent external panel, as the case may be, must be submitted in writing within 30 calendar days following notification of the decision to deny access to the corresponding information.

80. IDB Invest’s Management mechanism or the independent external panel, as the case may be, will deliver its decision within 30 calendar days following the notice of receipt of the request for review. When IDB Invest’s Management mechanism or the independent external panel, as the case may be, requires additional time to review the request because of its scope or complexity, it will contact the requester in writing to inform such requester of the delay and, if possible, provide an estimated timeframe for its response.
