FINANCIAL INNOVATION

We are investing in and embracing innovative sustainability technologies as an indispensable source of transformation for a greener future in our region. IDB Invest is expanding access to ESG derivatives and pioneering sustainability-linked bonds that will propel the private sector of Latin America and the Caribbean right in the center of the world's green key players. Attendees will dive into the complexity of these kinds of financial instruments that need to be understood and used wisely in such urgent times, as greenwashing risks putting efforts in doubt.

DAY 2 - JUNE 29 - CLIMATE ACTION - AM

8:00 - 8:45	Breakfast by Sustainable Fitch

Agustín Pichot, President for LATAM, Fortescue Future Industries 5. Joanna Pascual, Investment Manager Lead Officer, IDB Invest
1:05 - 1:55	Lunch Sponsored by NTT Data	

CLIMATE ACTION

Our agenda for SW22 includes a deep focus on tools and knowledge to overcome hurdles of leadership on climate change in order for participants to be able to accelerate powerful, bolder and immediate action. We are committed to building resilience in Latin America and Caribbean businesses and economies as a means to leverage the transforming power of the private sector on the journey to net-zero in line with the Paris Agreement. We continue to improve mechanisms that reduce the environmental impact of our projects and encourage government, people and businesses to join our community of doers to share knowledge, disseminate key findings, and increase awareness.

DAY 2 - JUNE 29 - SUSTAINABLE VALUE CHAINS - AM

8:00 - 8:45	Breakfast by Sustainable Fitch

Ricardo de Vecchi, Head of Public-Private Partnerships, IDB Invest 4. Rafael Matas, Lead Investment Officer, Infrastructure, IDB Invest

JUST TRANSITION

Since the first edition of IDB Invest's Sustainability Week, we have tackled the pressing environmental challenges that are putting our economies and societies at risk through all of our sectors—from agribusiness, to energy, transport, water, sanitation and equality. This exploration has been detrimental to lay down a road map for a green transition of the private sector that is just, gives voice to communities, and leaves no one behind. We will show the community of knowledgeable thinkers of SW22 that there is a way that we can enhance the ability to manage natural resources sustainably, increase energy efficiency and reduce waste, while promoting social justice and addressing inequality, lack of diversity and gender gaps.

DAY 2 - JUNE 29 - SUSTAINABLE DIGITAL TRANSFORMATION - PM
