

Environmental and Labor Issues:

This is a category III project according to the IIC's environmental and labor review procedure because it could produce certain effects that may be avoided or mitigated by following generally recognized performance standards, guidelines, or design criteria. Each subloan must comply with national environmental and labor laws, regulations, and standards as well as IIC environmental guidelines. To better understand and enforce the IIC's environmental and labor requirements, Banco Regional sent an employee to the IIC's October 2008 financial intermediary environmental training workshop.
